### SPECIFICATIONS

## **SPARES DESIGNATION MD-09-05-22**

1. Provide all labor, replacement parts, materials, equipment and services required to rebuild and overhaul ALCO model 251-C marine engine cylinder heads in accordance with the requirements as outlined herein and with ALCO specifications MI-11020G, DRP-12200N, DRP 12400H, and EB 11020.

It is the Government intention to have a total of fifty (50) heads overhauled. It is the contractor's responsibility to obtain the aforementioned publications from FM/ALCO. This assures the use of most current publications for use in this job.

### **NOTE TO CONTRACTOR:**

Prospective bidders shall be aware that the ALCO part numbers listed throughout this package were those available to us at the time. We realize that numbers are constantly being revised or superceded, especially with GE/ALCO now being FM/ALCO under Coltec Industries.

It is the contractor's responsibility to ascertain which parts numbers have been changed and automatically use the newer parts numbers for parts, so long as the part being provided is still the exact same OEM part. If the parts themselves have been altered then the contractor must notify the government representative or contracting officer in writing. Contractor to provide documentation to the origin of all parts used in overhauling the 251-C cylinder heads.

The description provided herein identifies the ALCO 251 style engines used on board the U.S. Army Dredge McFarland. The correct rebuilt head is to be determined by written description of parts to be utilized more so then the part number. Much discussion arises from which part numbers are current versus those superceded. Again, the correct unit is to be determined by narrative description more so then part number.

**NOTE:** The contractor is responsible for a shipping charge both for receiving the material to be refurbished, and once the material has been rebuilt and being returned to the Government. The contractor can either make arrangements with his own carrier or have the Government pick a carrier. If the government performs the shipment the charges shall be collected for the contractor. Coordination for shipment of the engine heads shall be with Richard Burns, U.S. Army Corps of Engineers, Fort Mifflin Distribution Center, at 1-215-365-5095.

The contractor is to obtain most current publication copies directly from ALCO to insure latest revisions and changes are utilized.

No engine head will be condemned because of the casting number. It is understood that a new style head casting has been developed and utilized on some ALCO engines, especially those that run at a much higher speed than those used by the Dredge McFarland. For this reason ALCO has been condemning the older serialized engine heads. The government is not changing the current Dredge MCFARLAND engine heads to the newer style. It is our intent to continue to utilize the older style engine application.

The only reason an engine head casting is to be condemned is because of the lack of rebuilding ability, due to cracks, pitting, corrosion, or test failure. The repair facility must be willing to accept the possibility of this condition prior to submission of bid or accepting award of the purchase order.

The government at this time **WILL NOT PURCHASE NEW STYLE HEADS.**

Any casting condemned for any reason must be returned to the government, with a written explanation of why it is being condemned. The casting itself must be marked with indelible ink "CONDEMNED". These units are government property and are to be treated as such. No matter what their condition or states.

It is the intent of this acquisition to completely disassemble, thoroughly clean up ALCO engine heads and parts, then to rebuild, overhaul, test, and return them to serviceability. The ALCO engine heads are for the 251-C model diesel engine. All work shall be in strict accordance with the following specification and all ALCO rebuilding instructions, bulletins, and service manual MI-110206; DRP-12200N; DPR-12400H, MI-11020G; and EB-11020.

**REQUIREMENTS:** These requirements are to be completed in conjunction with the information provided by ALCO rebuilding specifications, requirements, and service manual MI-11020G, and applicable publication listed on the preceding page.

- A. After disassembly of the heads and parts, examine all parts including valves, seats, springs, valve stem guides, and yokes. Measure all clearances and dye test for cracks, and then report findings in writing to the Contracting Officer's Representative (COR) via the Calihan Report. One condition report per cylinder head.
- B. The stripped heads shall be dipped in a solution that will clean all internal passages free of scale, sediment and carbon accumulations. After cleaning, re-dip the heads in a neutralizer and flush with fresh water.
- C. Hydrostatically test heads to 70 lbs. with 190 degree water as per ALCO instruction MI-11020G and prove tight.
- D. Re-roll fuel injection sleeve.
- E. Replace all valve guides, only with ALCO guides. All guides shall be contractor furnished.
- F. Replace existing valves with new contractor furnished ALCO brand 30-degree valves. This shall include all standard or oversized valve seats for intake valves. All valves and seats shall be ALCO authorized parts. Any boring or machine work for the installation of oversized valve seats shall be done at the contractor's expense.
- G. If oversized seats are necessary or required, all work shall cease. The COR shall be notified immediately. Unless otherwise specified the unfinished head shall be preserved, marked with condition, and returned to the government, at which time the government shall not pay a full item price. The government may choose to replace this unit with another in need of repair. A reduced price for the work accomplished shall be submitted to the C.O.R. and be examined. If necessary the contract will be modified, for the unfinished unit (s).

- H. Provide new snap rings and spring seats, with authorized ALCO parts, for the new contractor furnished 30-degree ALCO valves and all other minor parts and hardware necessary to install the valves. Insure proper seating of all valves to all valve seats. Grind and lap as necessary to ALCO specifications.
- I. Machine grind and lap in all exhaust valves to the contractor furnished new valve seats standard or oversized. Contractor shall provide and install new spring seats and locks. Check concentricity of the valves to the seats in accordance with manufacturer's instructions and service manual MI-11020G. Replace all springs with only authorized ALCO replacement parts. Exhaust valves, which are worn beyond ALCO requirements shall be placed with factory exhaust valves. Any exhaust valve, which must be renewed, will be paid for separately by modification to this contract.
- J. Reassemble the heads as per MI-11020G. Blank off as required and test with compressed air. Prove intake and exhaust valves are tight. Any minor repairs, adjustments or regrinding and lapping shall be completed and the heads re-tested. If any heads cannot pass a second re-testing, this will be brought to the immediate attention of the C.O.R. at which time and determination will then be made to see if the engine head wear is beyond serviceable limitations.
- K. Check condition and re-install the two nozzle clamp studs, special plug for stud, and two special studs for H.P. fuel lines. If any of these are missing or are defective, provide and install exact ALCO replacements. Replacement parts will be contractor furnished and paid for separately as a modification to the contract.
- L. Completed heads shall be wiped clean again, the outer perimeter given a coat of heat resistant primer, when dry a final coating of heat resistant enamel gray paint. Then each head shall be covered with a light liquid preservative material. Provide and install cardboard compression joint guards and strap them securely over the lapped compression joint surfaces. The head shall either be tightly wrapped with a moisture proof self adhering wrapping material or place in an extra heavy duty tightly sealed plastic bag .008 inch thick. Each finished engine head shall be packaged individually. One unit per container.
- M. Package containers can be made of wood or corrugated fiberboard. If wood, it shall be totally enclosed crate of 5/8-inch plywood minimum, with cocking and blocking to eliminate shifting in transit or handling. The lid must be secured with either lag bolts or Phillips head wood screws. This will eliminate destroying the crate to remove the head.
- N. An option, if desired, is to provide substantially extra heavy duty full flapped slotted cartons having a minimum bursting strength of 600 psi, with a double faced corrugated fiberboard liner for sides engine head is to be chocked in place with fan fold type corrugated fiberboard material. The entire carton is to be sealed with extra heavy duty packing tape and stapled. Finally the cartons are to be banded tightly closed with 1/2 inch to 3/4 inch steel strapping material, two straps per carton.
- O. Along with the finished engine heads to be returned to the government, the following used parts shall also be returned in a separate contractor furnished box or carton.
- 1. All intake valves from each head, two per head**
  - 2. All condemned valve springs, guides and yokes**
  - 3. All old valve seats, four per head, 30 and 45 degree**
  - 4. All condemned 45 degree valves**
- P. The Government will furnish the contractor the used heads. All shipping and transportation fees will be at the contractor's expense and will be shipped to the contractor C.O.D. or can be picked up by the contractor or his representative at Fort Mifflin Distribution Center in Philadelphia.
- Q. The contractor shall furnish under the contract the following parts, which must be authentic ALCO parts, except for hardware items.

1. All minor hardware, fittings, materials and tools to accomplish the work specified.
  2. One hundred (100) 30-degree ALCO intake valves and seats (P/N 2231211 & 22211817) with snap rings.
  3. One hundred (100) 45-degree ALCO exhaust valves seats only (P/N 22211815) with snap rings.
  4. Two hundred (200) valves spring seats and locks
  5. Two hundred (200) valve springs
  6. Two hundred (200) valve guides
- R. The following items if required shall be furnished by the contractor. Verification of these parts is required in writing from the contractor. All old unusable or condemned parts on this list shall be returned to the government. The contractor must use only authentic ALCO replacement parts. Parts other than those, especially the intake and exhaust valves, not stamped or marked by ALCO are not authentic or authorized replacement parts.
1. 45 degree exhaust valves (P/N 22311210)
  2. Equalizer guides or yokes
  3. Fuel valve seats
  4. Stud nozzle clamp 5/7-11x5-5/16 inch (P/N 2151429-5)
  5. High pressure fuel line studs
  6. Plug Spl. for nozzle clamp and stud (P/N 2221082)

The above listing is not limited to the items mentioned. As it is understood that any unforeseen defective parts not covered as Government-furnished or Contractor-furnished whether as a bid or as a supplemental item would need replacing in order to complete all required repairs. These items, if not covered, shall be brought to the attention of the C.O.R. and will be treated in a subsequent modification.

- S. All head provided are to be returned with the conventional **premium non-rotation** valves

#### **SPECIAL MARKINGS:**

Each package and container will be marked with the following information in at least 1 inch stenciled lettering, or machine type labels, highlighting the spares designation number.

- A. Spares Designation: MD-09-05-22
- B. Description: Alco 251 Cyl. Hd. P/N 22200222
- C. Gross weight (currently ranges from 290 to 330 lbs.) Actual weight to be determined by contractor.
- D. Purchase Order Number (will be furnished on documents at time of award)
- E. Date of repair

All markings shall be required on the two opposite long sides of each container.

#### **WARRANTY:**

The contractor is required to assure that each overhauled Alco engine head is serialized or identification number permanently marked on the casting. The contractor is required to record the serial or permanent marked number for all the engine heads overhauled and repaired.

The contractor shall retain a record of these numbers and as well provide a complete copy of the same listing to the **Technical Point of Contact, Richard J. Burns**. The contractor shall certify the listing.

The contractor shall furnish with his bid a warranty for parts, craftsmanship and workmanship for each engine head in accordance with Clause no. 52-246-20, herein. This warranty shall be retained on file in case there is a need to undertake some warranty related repairs. The warranty shall be set up for the number of operational hours rather

then days. A number of these repaired heads will be placed into Corps of Engineers stock system and may not be pulled out and used for a period of time. Storage periods can run as much as two years after repair, so proper preservation is essential. The assigned serial number or identification number shall be marked on the outside of each carton, with a hard card placed inside with the identification information, date and contract number.

52.211-8 TIME OF DELIVERY (JUN 1997)

(a) The Government requires delivery to be made according to the following schedule:

#### REQUIRED DELIVERY SCHEDULE

**Delivery shall be within 6-8 weeks after receipt of order to:**

**Ft. Mifflin Project Office  
Attn: Richard Burns  
6400 Hog Island Road  
Philadelphia, PA 19153-3808**

The Government will evaluate equally, as regards time of delivery, offers that propose delivery of each quantity within the applicable delivery period specified above. Offers that propose delivery that will not clearly fall within the applicable required delivery period specified above, will be considered nonresponsive and rejected. The Government reserves the right to award under either the required delivery schedule or the proposed delivery schedule, when an offeror offers an earlier delivery schedule than required above. If the offeror proposes no other delivery schedule, the required delivery schedule above will apply.

(b) Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed, or otherwise furnished to the successful offeror, results in a binding contract. The Government will mail or otherwise furnish to the offeror an award or notice of award not later than the day award is

dated. Therefore, the offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails. However, the Government will evaluate an offer that proposes delivery based on the Contractor's date of receipt of the contract or notice of award by adding (1) five calendar days for delivery of the award through the ordinary mails, or (2) one working day if the solicitation states that the contract or notice of award will be transmitted electronically. (The term "working day" excludes weekends and U.S. Federal holidays.) If, as so computed, the offered delivery date is later than the required delivery date, the offer will be considered nonresponsive and rejected.

#### 52.212-3 OFFEROR REPRESENTATIONS AND CERTIFICATIONS--COMMERCIAL ITEMS (MAY 2004)

(a) Definitions. As used in this provision:

"Emerging small business" means a small business concern whose size is no greater than 50 percent of the numerical size standard for the NAICS code designated.

"Forced or indentured child labor" means all work or service-

(1) Exacted from any person under the age of 18 under the menace of any penalty for its nonperformance and for which the worker does not offer himself voluntarily; or

(2) Performed by any person under the age of 18 pursuant to a contract the enforcement of which can be accomplished by process or penalties.

Service-disabled veteran-owned small business concern--

(1) Means a small business concern--

(i) Not less than 51 percent of which is owned by one or more service-disabled veterans or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more service-disabled veterans; and

(ii) The management and daily business operations of which are controlled by one or more service-disabled veterans or, in the case of a service-disabled veteran with permanent and severe disability, the spouse or permanent caregiver of such veteran.

(2) Service-disabled veteran means a veteran, as defined in 38 U.S.C. 101(2), with a disability that is service-connected, as defined in 38 U.S.C. 101(16).

"Small business concern" means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR Part 121 and size standards in this solicitation.

Veteran-owned small business concern means a small business concern--

(1) Not less than 51 percent of which is owned by one or more veterans (as defined at 38 U.S.C. 101(2)) or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more veterans; and

(2) The management and daily business operations of which are controlled by one or more veterans.

"Women-owned small business concern" means a small business concern--

(1) That is at least 51 percent owned by one or more women or, in the case of any publicly owned business, at least 51 percent of its stock is owned by one or more women; or

(2) Whose management and daily business operations are controlled by one or more women.

"Women-owned business concern" means a concern which is at least 51 percent owned by one or more women; or in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more women; and whose management and daily business operations are controlled by one or more women.

(b) Taxpayer Identification Number (TIN) (26 U.S.C. 6109, 31 U.S.C. 7701). (Not applicable if the offeror is required to provide this information to a central contractor registration database to be eligible for award.)

(1) All offerors must submit the information required in paragraphs (b)(3) through (b)(5) of this provision to comply with debt collection requirements of 31 U.S.C. 7701(c) and 3325(d), reporting requirements of 26 U.S.C. 6041, 6041A, and 6050M, and implementing regulations issued by the Internal Revenue Service (IRS).

(2) The TIN may be used by the Government to collect and report on any delinquent amounts arising out of the offeror's relationship with the Government (31 U.S.C. 7701(c)(3)). If the resulting contract is subject to the payment reporting requirements described in FAR 4.904, the TIN provided hereunder may be matched with IRS records to verify the accuracy of the offeror's TIN.

(iii) 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans (December 2001) (38 U.S.C. 4212).

(iv) 52.222-36, Affirmative Action for Workers with Disabilities (June 1998) (29 U.S.C. 793).

(v) 52.222-41, Service Contract Act of 1965, as Amended (May 1989), flow down required for all subcontracts subject to the Service Contract Act of 1965 (41 U.S.C. 351, et seq.).

(vi) 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels (April 2003) (46 U.S.C. Appx 1241 and 10 U.S.C. 2631). Flow down required in accordance with paragraph (d) of FAR clause 52.247-64.

(2) While not required, the contractor May include in its subcontracts for commercial items a minimal number of additional clauses necessary to satisfy its contractual obligations.

(End of clause)

52.222-49 SERVICE CONTRACT ACT--PLACE OF PERFORMANCE UNKNOWN (MAY 1989)

(a) This contract is subject to the Service Contract Act, and the place of performance was unknown when the solicitation was issued. In addition to places or areas identified in wage determinations, if any, attached to the solicitation, wage determinations have also been requested for the following TBD. The Contracting Officer will request wage determinations for additional places or areas of performance if asked to do so in writing by the contractor.

(b) Offerors who intend to perform in a place or area of performance for which a wage determination has not been attached or requested may nevertheless submit bids or proposals. However, a wage determination shall be requested and incorporated in the resultant contract retroactive to the date of contract award, and there shall be no adjustment in the contract price.

(End of clause)

52.246-20 WARRANTY OF SERVICES (MAY 2001)

(a) Definition.

"Acceptance," as used in this clause, means the act of an authorized representative of the Government by which the Government assumes for itself, or as an agent of another, ownership of existing and identified supplies, or approves specific services, as partial or complete performance of the contract.

(b) Notwithstanding inspection and acceptance by the Government or any provision concerning the conclusiveness thereof, the Contractor warrants that all services performed under this contract will, at the time of acceptance, be free from defects in workmanship and conform to the requirements of this contract. The Contracting Officer shall give written notice of any defect or nonconformance to the Contractor within 365 calendar days (one year) after acceptance. This notice shall state either (1) that the Contractor shall correct or reperform any defective or nonconforming services, or (2) that the Government does not require correction or reperformance.

(c) If the Contractor is required to correct or reperform, it shall be at no cost to the Government, and any services corrected or reperformed by the Contractor shall be subject to this clause to the same extent as work initially performed. If the Contractor fails or refuses to correct or reperform, the Contracting Officer may, by contract or otherwise, correct or replace with similar services and charge to the Contractor the cost occasioned to the Government thereby, or make an equitable adjustment in the contract price.

(d) If the Government does not require correction or reperformance, the Contracting Officer shall make an equitable adjustment in the contract price.

(End of clause)
